

In Harmony with diversity

21 March 2016

Harmony Day was the culmination of Cultural Diversity Month celebrations at the Women's and Children's Health Network.

On Harmony Day, Monday 21 March, there were dance performances at the Women's and Children's Hospital by the Kurdish Youth Group, supported by the Youth Advisory Group and African Women's and Men's Dance Crew supported by the Cultural Roundtable.

The dances were an interactive experience with all staff, visitors and consumers encouraged to join in.

Cultural Diversity Month at the Women's and Children's Health Network has been an opportunity for staff, consumers, stakeholders and visitors to join in and embrace cultural diversity and share what we have in common.
